

STATPAC

The Political Action Committee of the New Jersey Chapter of the American College of Emergency Physicians

CONTRIBUTION FORM

Right now, lawmakers and government officials, not trained in medicine, are making decisions on legislation that may affect our specialty and how we provide our patients' care. It is important that emergency physicians band together and aggressively continue the role of patient advocates.

STATPAC is an effective and efficient way to help us communicate our views to legislators. Help assure that STATPAC will be able to impact on the important legislative issues that affect you and your patients.

- Enclosed is a check for \$_____ for the Level as checked below
